## ABOUT BERGAMOT

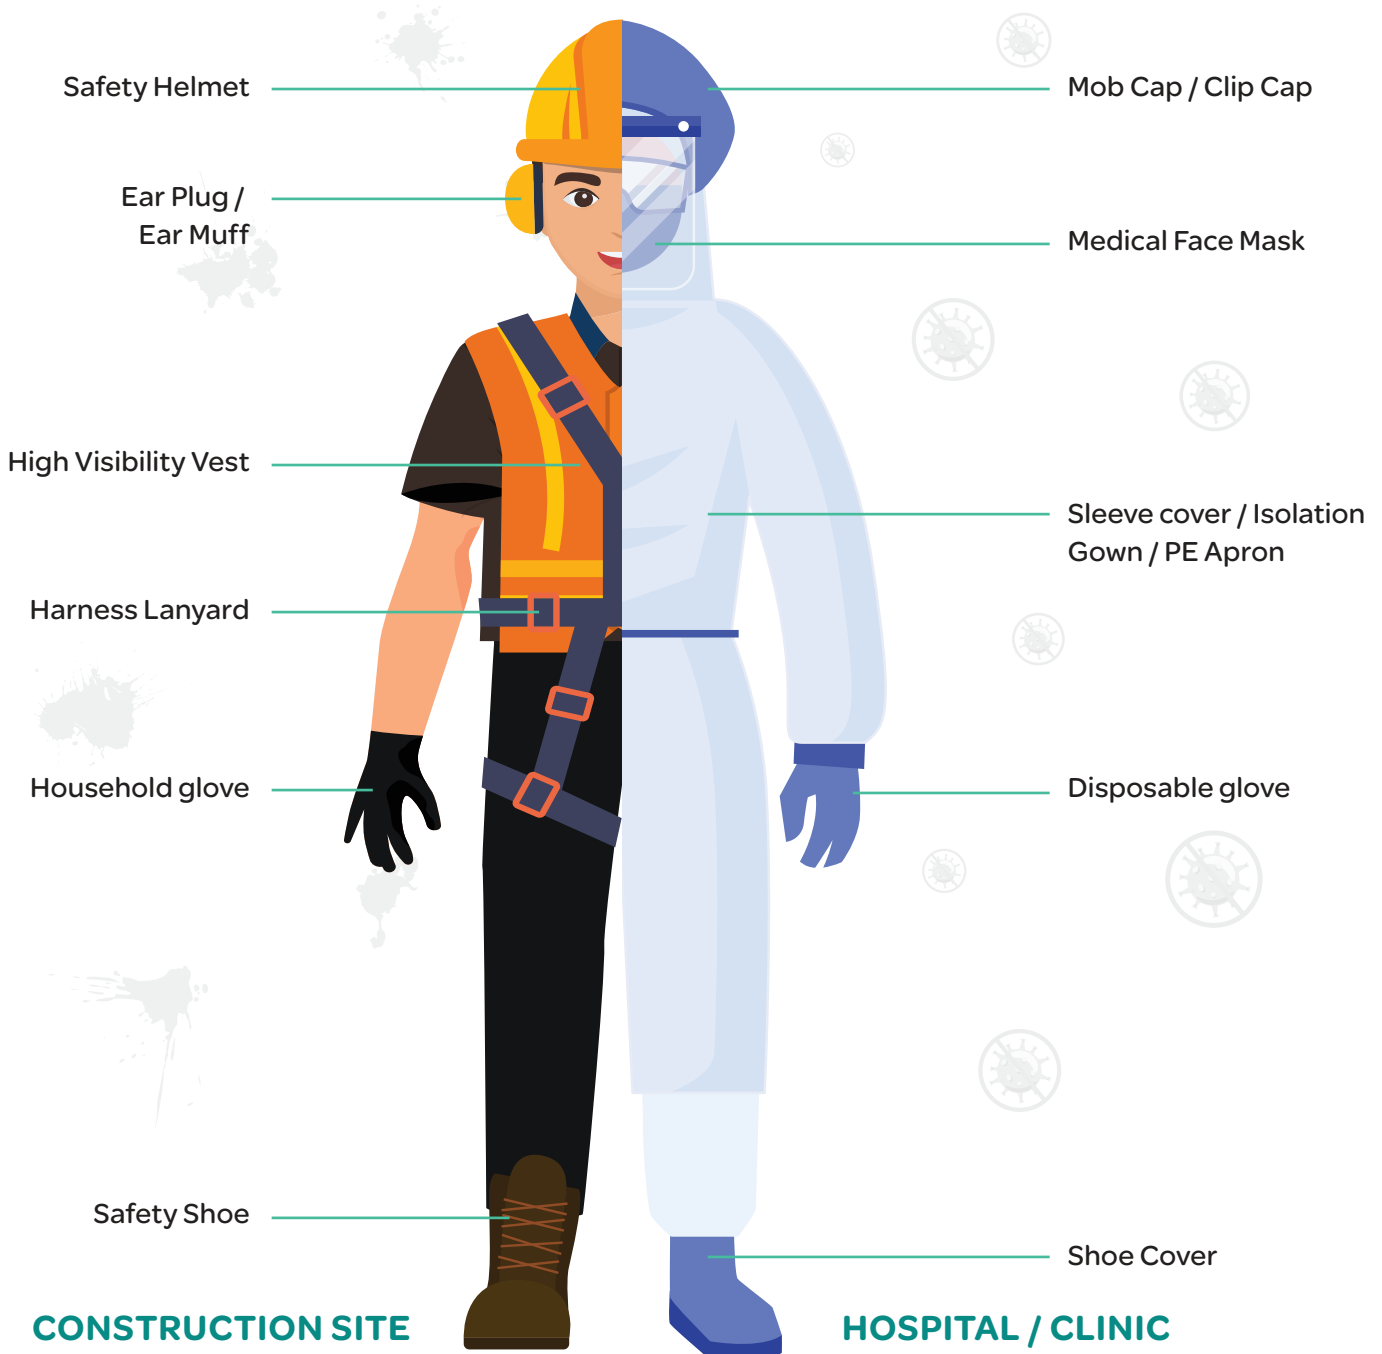

**Bergamot** has been a pioneer in this industry, signifying a wide range of medical disposables and personal protective equipment (PPE) by establishing a sustainable supply chain that drives for extra miles. With 25 years' experience, we understand market needs and develop the right products that serve the new norm of working environment. Our core value is in line with our company's direction of continuous innovation that embark the integrity on our product quality. "Where requirements meet Perfection" lead us to serve our domestic market and international customer worldwide for the highest level of satisfaction by redefining our products, our services, and our business infrastructure.

**Bergamot** offer latex examination powdered/powder free gloves, nitrile examination powder free gloves, vinyl examination powder free gloves, surgical gloves, household gloves, cleanroom gloves, industrial gloves, CPE products, face mask, disinfectant products, dialysis products, disposable cap, and etc.

# What Is Personal Protective Equipment (PPE) ?

PPE is the commonly used acronym for Personal Protective Equipment and refers to any garment or equipment designed to be worn and protect employees from occupational hazards. When it comes to the hierarchy of hazard controls, PPE is considered as the last line of defense for workers. Even so, it is crucial to have well-fitting, properly designed and maintained equipment as PPE is a proven way to improve safety and prevent accidents in the workplace.

Below is the example of PPE used in two different workplaces: construction site vs hospital or clinic.
