CE0197

Hemodialysis Bicarbonate

Bicarbonate Cartridge

- Each individual BICART Cartridge, available in 650gm and 950gm sizes, offers sufficient bicarbonate to meet the majority of your in-center requirements.
- BICART Cartridge is diluted automatically by the machine; attach the cartridge and allow the machine to handle the rest of the process.

Features

- Designed for user convenience, featuring an ergonomic design with a cap closure for easy and hygienic disposal post-treatment.
- Compact cartridge size minimizes waste and reduces environmental impact when compared to disposable liquid bicarbonate in larger jugs.
- Eliminates the need for cleaning, testing, or disinfecting of containers or central supply loops, streamlining the maintenance process for healthcare facilities.

Hemodialysis B dry powder (cartridge)

No.	Code	Item	Packaging
1	HB001 (650gm)	Bi-Cartridge (650gm)	10 cartridges/carton
2	HB007 (950gm)	Bi-Cartridge (950gm)	10 cartridges/carton
